Border Control Measures
to Tackle the Spread of Novel Coronavirus

June 29, 2020

1. Additional designation of areas subject to the entry ban
   Designating the entire areas of 18 countries listed below* as areas subject to the entry ban. Banning the entry of foreigners who have visited the areas within the last 14 days unless there are special exceptional circumstances.
   * Algeria, Iraq, Eswatini, Guyana, Cameroon, Cuba, Guatemala, Grenada, Costa Rica, Jamaica, Georgia, Senegal, Saint Vincent and the Grenadines, Central Africa, Nicaragua, Haiti, Mauritania, Lebanon

   Note 1: As a consequence of the designation above, 129 countries and regions are subject to the entry ban in total.

   Note 2: Foreigners with the status of residence of "Permanent Resident", "Spouse or Child of Japanese National", "Spouse or Child of Permanent Resident" or "Long Term Resident", who have departed Japan with Re-entry Permission by June 30, are treated, in principle as persons in special exceptional circumstances. This, however, is not applicable to foreigners who depart Japan on or after July 1. The "Special Permanent Resident" is not in the scope of the entry ban.

2. Strengthened quarantine
   Conducting PCR tests for arrivals who have visited the countries listed in paragraph 1 above within 14 days prior to their entry into Japan.

3. Continuation of the border measures currently being implemented
   Renewing the period of strengthened quarantine, visa restrictions, restriction on airports/ports for passenger aircraft (and ship) arrivals and measures to curb the number of arrival passengers by flight to Japan to be implemented until the last day of June, which was decided at the 36th meeting of Novel Coronavirus Response Headquarters held on May 25, and implementing them until the last day of July. The period can be renewed.

   Note 3: Alternative testing method might be introduced in lieu of PCR tests in the future when it is established.

   The measures described in paragraph 1 and 2 above will be implemented from 0:00 am (JST) on July 1 and remain in place for a period. The measures will also be applied to those who will depart before the launch of these measures and arrive in Japan after their introduction.
